

## GOOD CAUSE BASED ON HOBBY

I am in a higher risk category than the general population because I am an amateur photographer. The threats to me are people who would attack me to steal my photography equipment. The kinds of items I use are lenses worth \$1,000, cameras worth \$1,500, and flashes worth \$250.

I usually take pictures in downtown San Diego. I do my photo shoots on the weekends, as early as 7am, and as late as 8pm. My fear is that I will be attacked while taking pictures with the valuable material.

As a hobby, I take photographs of people and landscape in public. I typically do this on the weekends and evenings. Sometimes I take pictures of people downtown and sometimes I take landscape or more natural pictures.

I have been a gun owner for 5 years and have been taught how to properly and safely use a firearm. Because my hobby as a photographer puts me in a higher risk category than the general public, I am requesting to be issued a California CCW.
